**FEATURING: 9 HOURS of LECTURE MATERIAL:**

**From Instruction to Inspiration:**

**New Paradigms in Teaching  
ARCT Analysis**

*PLUS Joe will provide a one hour consultation free of charge to any teacher who signs up for these recordings!*

**Question: "Do you teach Analysis?"**

*Correct Answer: "Yes" ... because we all teach analysis in some form starting in the earliest practical lessons up through the advanced levels!*

**ORMTA  
ETOBICOKE-  
MISSISSAUGA  
BRANCH AND**

**JOE RINGHOFER**

**Have partnered to offer for the first time ever the 3 days of lectures presented during our August Teacher Professional Development session.**

**JOE IS**

**Co-author of the Celebrate Theory Series of books: Level 9 through to ARCT Harmony, Counterpoint & Analysis**

*These recordings focus on the ARCT Analysis material including: harmonic analysis, fugal analysis, binary/ternary forms, sonata and rondo forms, an exploration of art song, and a survey of post-1900 techniques.*

*These recordings will benefit all teachers who would like to brush-up on their abilities to deconstruct music. For the only thing more important than providing our students with "the answers" is teaching them what questions to ask of the music they play and listen too!!*
